

# APJ RevStrat Case

Dan McHugh  
27/12/23

# Agenda

## 1. FY22 Forecast

- a. Growth Assumptions
- b. Forecast Detail

## 2. Critical Asks / Dependencies for FY22

- a. AE Hiring Plan
- b. Marketing Investment
- c. SDR Discussion

## 3. Appendix

- a. FY21 Team Performance

# FY22 Forecast

## FY22 Forecast Growth Assumptions

+34%  
YoY  
Growth

### Investment-Led

1. FY22 Availability of an **outbound SDR function** to increase the number of leads going into the Outbound top-of-funnel (new logos)
  - a. Outbound SDR function adds 100% more leads into Outbound top-of-funnel (new logos)
2. FY22 **increase in ABM & Event-based marketing availability** impacting Existing Customer Product Lead & Existing Customer Inbound
  - a. Existing Customer Product Lead marketing efforts improve lead volumes by 20%
  - b. Existing Customer Inbound marketing efforts improve lead volumes by 20%

### Seller Efficacy

1. **Existing selling performance** in Commercial improves by 5% YoY (Enablement, product knowledge)
2. **Conversion rates** remain steady YoY

### Market

1. **New Business** closes at FY21 Average deal size +5%

## FY22 Forecast by Team & Lead Source Funnel

- Large increases to Existing inbound motions in SF and Sydney, which have not been performing as strongly as peers - Marketing-led motion driving increase
- Large increases to Outbound motion in Sydney & Dublin - SDR-led increases

# Critical Asks & Dependencies

# Account Executive Hiring Plan

## Next Steps

1. Gain awareness and support for FY22 Revenue Forecast (Goal) → Bringing stakeholders from Sales, Marketing Finance, Channel, HR & Presales together.
  - a. Sharing on Slack growth assumptions with overview from RevStrat
  - b. Identify champions in each stakeholder team to own discussion and alignment
  - c. Workshop where required
  - d. Share agreement internally for progression to Step 2
2. Workshop v1 of an AE Hiring Plan with all supporting information
  - a. Formulate Geo-specific hiring plan based on increase in leads to qualify/progress (Marketing & SDR)
3. Sign off and activation of Plan with fortnightly progress updates in Q1 (monthly in Q2-Q4)

## Support to Drive v1 of Model

- 1. Data:**
  - a. HR → Time to hire + ramp
  - b. HR → Market availability and cost
  - c. HR → Spans of control required (adding managers)
  - d. Sales → Quota / Territory size for Mid-Market
  - e. Sales → AE Tenure
  - f. Sales → AE Productivity / Ave Deal Size
  - g. Sales → AE Conversion rates
  - h. Sales → Ave Lead time to close
    - i. Marketing → Speed to lead
    - j. marketing → Key events that influence inbound lead rates
- 2. Support Available:**
  - a. Enablement → Time to ramp / quality at ramp
  - b. Enablement → Capacity to onboard
  - c. HR / Sales → Known seller attrition / historical rates

# Marketing Support for FY22

## Support Requested

- 1. In-Person Event-Led Marketing budget increase:**
  - a. Improve current customer engagement & awareness
  - b. Provide SDR teams with a “call-to-action” and a “perishable moment in time” to drive quality leads to AE teams
  - c. Focus on support for Inbound teams → use cases & customer proof points that promote wall-to-wall within current install-base
- 2. ABM Focused Marketing and Webinars to support SDR teams in MidMarket (focus on outbound soft-landing)**
  - a. Highlight key growth industries for Basana and use-cases that promote quick ROI
  - b. Segment ABM by Geo and Industry

## Expected Outcomes

- 1. Inbound Team lead improvement:**
  - a. Shift away from Product-led marketing efforts for Commercial towards use case ROI for key install-base customer segments
  - b. Build a repository by Geo and Industry that speaks to “next-best-action” in going wall-to-wall with Basana
  - c. Provide richer community for Commercial clients and partner ecosystem to leverage
- 2. Outbound SDR focus in Mid-Market supported by targeted ABM and webinar events**
  - a. Richer / rapidly qualified opportunities in a higher than average win-rate environment
  - b. Provide SDRs with a 30/70 split of their lead volume (enabling fast starts and consistent volume)

## High-Leverage Points for SDR

1. Outbound has the highest closed-won rate - providing good ROI for any increase in lead volume driven by SDRs (lower quartile for current volume)
2. Outbound has the largest average deal size across Geos for Mid-Market
3. Due to smaller size of AE team, would initially look at a 2:1 pairing or AEs to SDR. Dedicated Geo and/or industry knowledge to drive outbound leads.
4. Provides a proving ground / accelerated career progression into AE roles → knowledge sharing within pods of AE/SDR pairings
